## Private Music Lessons

Your music instructor is a highly trained and conscientious professional who will emphasize the importance of playing the instrument correctly as well as, proper ear training. Just as important is the students ability to perform before an audience. We encourage your young musician to participate in the various recitals and concerts held throughout the year by Lovell Records.

**(786) 423-5458**

GUITAR AT FIRST SIGHT is a book which uses the method of creating enthusiasm for a child to start playing music from the very first time he lays eyes on it. Throughout this book there are singable, memorable melodies which the student can pick up by ear. Even the formal training of learning to read the notes, which starts on page 37, is done in the same "hearing based" manner.

## Rock Band Management

**Record and release their own CD**

**Make a music video**

**Have an extensive web presences**

**Perform at social events**

**The main source of material is taken from industry web sites such as:**

**[www.therubberchicken.com](http://www.therubberchicken.com)**
